Recognizing Remarkable Leaders

As I write this, WhidbeyHealth staff have administered more than 7,200 COVID-19 vaccinations in eight weeks. Incredibly complex planning by key leaders has delivered results when our friends and neighbors need it most.

At our February 10th meeting, Board members presented the first ever Commissioners Recognition Award to CMO Erin Wooley, Director of Pharmacy Tony Triplett, and Executive Director of Facilities, Tim Waldner. Erin and Tony were recognized for exceptional leadership during the pandemic. Tim was celebrated for his leadership in implementing facility modifications and systems to assure patient and staff safety.

Leaders like Erin, Tony, and Tim began organizing resources to respond even before the first confirmed case of coronavirus in the U.S. This is a true testament to the commitment and dedication which is true of everyone at WhidbeyHealth and another demonstration of the importance of exceptional care close to home.

Visit our webpage to learn more about the Board, including how you can attend our regular meetings online. Also, please consider supporting the WhidbeyHealth Foundation to help defray the millions of dollars in COVID-19 related costs.

Giving with Heart

Dear Neighbors and Friends,

As always, I hope this letter finds you healthy and well. At the WhidbeyHealth Foundation, it feels like a month-long Valentine’s Day celebrating supporting the amazing work of WhidbeyHealth staff as they provide vaccinations efficiently and conveniently, to as many folks as possible given the limited vaccine supply. Volunteers from all over the island arrive every day to assist staff with everything from registration to administering the vaccine. We LOVE our volunteers!

Service is at the heart of how we care for our community. Last year, each of us had the extraordinary privilege of witnessing firsthand how Whidbey Islanders respond when there is critical need. The outpouring of support for WhidbeyHealth Foundation’s fundraising efforts was and is always a reflection of the generosity and genuine concern for others that our island is known for. Donors responded quickly to help WhidbeyHealth meet the challenge of providing quality healthcare in our rural community. For this we say a heartfelt Thank you!

Because of your generosity, WhidbeyHealth is more prepared than ever to meet the challenges ahead. Your donations support outstanding care for patients and their families, providing equipment and training when it is needed most. If there is anything this pandemic has taught us, it is that we need to be “Future Ready,” with our staff prepared to manage whatever comes next.

WhidbeyHealth is here for you, delivering exceptional healthcare and kindness to meet the needs of every patient. Thank you for supporting local healthcare as a vital resource for our island community.

Whatever 2021 may bring, we know that strengthening healthcare strengthens us all!

Together, we care!

Warmly,

Ron Wallin, President
WhidbeyHealth Board of Commissioners

Helen Taylor, Executive Director

WhidbeyHealth Foundation
Whidbey Island – One Resilient Community

This year’s ‘Snowpocalypse’ demonstrated how quickly things can come to a halt. Roads were impassible, ferries cancelled, power went out, and some businesses shuttered for days. As they always do, our team at WhidbeyHealth made me proud. Walk-In Clinics were open, EMS was in full operation, and Medical Center staff overcame cold and snow to get to work and serve patients in every department.

Our immediate focus is on getting COVID-19 vaccinations for everyone. Following WADOH guidance and subject to limited inventory, we are continuously refining efficiencies to get ‘shots in arms.’ We are thankful for the incredible volunteers who staff the vaccination clinics. Special appreciation goes to Pastor Jim Lindus of Trinity Lutheran Church in Freeland who hosted our first pop-up vaccination clinic. We gave 407 shots in 4 hours! A tremendous thank you to our team of staff and community volunteers.

We look forward to our first Accreditation Survey which is expected by the end of June. WhidbeyHealth was recently recognized by Press Ganey with their Guardian of Excellence Award for Clinical Quality. We are proud of this recognition and will continue to demonstrate our commitment to excellence with an annual accreditation survey.

We are proud of new services that enhance the health of our community. Locally situated Walk-In Clinics improve access to care. The new Community Pharmacy, expected to open in June, will better integrate with patient medical records and reduce the cost of prescription drugs for many patients.

Recruiting top providers is a challenge for every hospital in the United States. By some estimates there will be a shortfall of more than 50,000 primary care physicians within the next eleven years. With the addition of a full-time recruiter, we continue to expand our our primary care team to care for patients. The ‘Primary’ in Primary Care is just that: the first step in access to quality care and an essential ingredient in good health.

The pandemic has burdened all of us with challenges. Despite the challenges, I am excited for our future. As a community, we have come together in so many ways to support and keep each other safe. Thank you all for your support of WhidbeyHealth.

With hope and gratitude,
Ron Telles, CEO

With hope and gratitude,
Ron Telles, CEO
Update: WhidbeyHealth Community Pharmacy

Work continues creating our newest service: The WhidbeyHealth Community Pharmacy.

Teams from WhidbeyHealth Pharmacy and Facilities Management have been hard at work renovating the former Wells Fargo building on North Main Street in Coupeville for our Community Pharmacy. Once in operation, a pharmacist will meet with patients and their providers to review prescription prior to discharge. Prescriptions for discharge can be delivered to the patient’s bedside before leaving the hospital. The central Whidbey Island location will be more convenient for many patients and enable another improvement in continuity of care.

Community Pharmacy services have been in the planning stages for more than a year. Opening the pharmacy depends on an extensive regulatory review prior to our grand opening tentatively slated in June. Keep an eye on future editions of the PULSE for updates and details.

Our Commitment to Our Community:

In leading healthcare organizations, an effective Quality Management System is often the dividing line between those that thrive and those that are just managing to survive. The visibility and use of quality-of-care metrics for performance improvement impact nearly every facet of our healthcare system from reimbursement to reputation.

It is important to remember that Quality is not just a department. Quality means care that is:

- Safe: coordinated, monitored, measured, reported, and improved
- Meets or exceeds expectations and provided at lower cost
- Efficient: productive, and decreases waste or other inefficiencies

The quality of the care we provide, and the success of our Quality Management System starts with each member of our WhidbeyHealth team. To support our team and promote the highest quality of care, WhidbeyHealth has adopted Just Culture as one of our core principles. We believe that the skills and professionalism of our team can shine through when our culture promotes:

- An effective way to share ideas and address concerns
- Learning from mistakes and not assuming a mistake means wrongdoing.
- Fair and objective reviews of where things went wrong and how to correct and improve
- The expectation that patients, and fellow team members, are treated with respect and compassion

We are only at the beginning of our Just Culture journey but have already seen the most amazing response from our team. In addition to planning and building an effective Quality Management System and promoting Just Culture, it is great to have partners along the journey to becoming a high-performing healthcare system.

We have chosen to partner with DNVGL Healthcare for our hospital accreditation. Hospital accreditation from DNV GL is our commitment to our community, to other hospitals in our region, and to the Washington Department of Health that we are determined to provide the safest and most effective healthcare possible.

Even during one of the most difficult periods of time for healthcare, we have never been more determined to provide care that our community can trust. Our future is bright here at WhidbeyHealth!

Jon Scallan
Chief Quality Officer
New Provider Spotlights

Heather has been practicing for 25 years and started as an emergency room nurse at a Level 1 trauma center, was a flight helicopter nurse, gained emergency department experience treating pediatric emergency patients, burn victims, cardiac conditions, and other medical emergencies. She returned to school for her Emergency Nurse Practitioner credentials, graduated with honors from the University of Texas Health Science Center in Houston and has been working as an ENP for more than 15 years. WhidbeyHealth is tremendously excited to bring Heather’s knowledge and experience to our Emergency Department!

David Carnes, Physician Assistant – Certified (PA-C) joined WhidbeyHealth at our Walk-In Clinic Oak Harbor in 2020. David received his PA-C from the University of Nebraska and is Board Certified by the National Commission on Certification of Physician Assistants. His patient philosophy is to treat every patient as if they are family. PA Carnes is a USAF veteran with 23 years of service. The highlights of his career include receiving the Bronze Star in 2005 and serving on the medical team that treats the President and Vice President of the United States from 2009 – 2012. Carnes also received recognition as Outstanding Global Health Person of the Year for the USAF (2005) and Excellence in Deployed Preventative Medicine for the Department of Defense (2009). PA Carnes is an active volunteer for North Whidbey Fire and Rescue as part of their Marine search and rescue team. He was the past Medical Director for Skagit Regional Clinic’s Urgent Care clinics.

Dr. McKinney joined the WhidbeyHealth Primary Care Cabot Drive team in 2020. He specializes in internal medicine, along with diabetic and cardiovascular care. Dr. McKinney’s care philosophy is straightforward - to educate and help provide patients with the tools to make informed decisions about their care. Dr. McKinney received his medical education at the Medical College of Wisconsin and served his residency at Oregon Health Sciences University. He is certified by the American Board of Internal Medicine and became a Fellow of the American College of Physicians in 2015.

What it is like to work at WhidbeyHealth

Debbie DeCorde joined the WhidbeyHealth team in December as our Chief Human Resources Officer. We asked her to tell us what it is like to be a new member of the team:

“The welcome has been heartfelt and assures me that I made the right choice. Working at WhidbeyHealth is like having an instant extended family of 700 plus friendly faces. The work environment is caring and jovial while simultaneously challenging and rewarding.

Human Resources is a dynamic field and I enjoy driving a Customer Service focused approach to our ever-changing profession. I bring an experiential base of decades with a passion for people, efficiencies, and continuous improvements. It is rewarding raising the bar for what you should expect of our HR Team.

I love rural settings, island life, and exploring all that we have here. Weekend fun can include driving adventures to explore the region, walks and hikes, creatively socializing and getting to know more people. Fun facts: I love kitchen gadgets!

Debbie DeCorde, Chief Human Resources Officer

Outpatient Services Spotlight

Sleep Lab:
Proper sleep is vital to your health and well-being. If you or a loved one are experiencing insomnia, snoring, excessive sleepiness, restlessness, or sleep apnea, we can help! WhidbeyHealth Sleep Care is fully accredited by the American Academy of Sleep Medicine and our certified sleep specialists utilize the latest technology and techniques to deliver cost effective diagnosis and treatment for sleep disorders for patients of all ages. Take the first steps to more restful sleep today.

Cardiac Rehab Center:
Cardiac Rehabilitation at WhidbeyHealth is a medically supervised program to help you increase activity levels and restore and maintain optimal health. Our staff of cardiac trained nurses and exercise physiologist will help you manage stressors and risk factors to help reduce your risk of future heart problems. Don’t take our word for it – WhidbeyHealth’s full suite of Rehab Care services was awarded “Best of Whidbey” in 2020!

Home Health:
Whether you or your loved one needs in home help with recovery, ongoing support with a serious illness or compassionate end-of-life care, our interdisciplinary team offers an individualized approach to meeting your specific needs. WhidbeyHealth offers a range of Home Health services, from general home health care to palliative care and hospice care. We are also a provider of Lifeline services – a one-touch, wearable help button that puts you in contact with a Lifeline monitor who can help 24/7.

Orthopedics:
Serious injuries and extreme discomfort sometimes require surgical correction. We are continuing to build up our orthopedic surgical teams to address a growing need in our diverse community. One of the areas that have grown in Orthopedics is WhidbeyHealth’s Total Joint Replacement. Those who live with hip or knee pain often have daily challenges that make routine activities difficult or even impossible. Total joint replacement is a surgical procedure in which parts of an affected joint are removed and replaced with a prosthesis which returns the easy movement of a normal, healthy joint.

Speech, Occupational, Physical Therapies:
With two convenient locations to serve our community – Oak Harbor and Coupeville – our rehabilitation services was awarded “Best of Whidbey” in 2020. We tailor your care for both inpatient and outpatient needs as well as coordinate services with other areas of care, such as cancer treatment or orthopedic surgery.

“My WhidbeyHealth physical therapist is always sure to listen first and make me the most comfortable as possible. Compassionate and caring individuals are hard to find and it means a great deal.”

Click here to learn more about all of our outpatient services.
COVID Update (Vaccine Clinic & Testing)

Like most across our state, Whidbey Island residents are eagerly awaiting their eligibility to receive a COVID-19 vaccination. While there have been some challenges and set-backs due to vaccine allocations to vaccine administrators, we have updated our appointment process to better align ourselves with how vaccine is being distributed – to ensure that we will not have to cancel or postpone any future scheduled vaccine appointment for our Island residents.

Whidbey Health’s Vaccine Clinic is now opening vaccine appointments based on the number of vaccine doses we receive each week – if we receive 1,000 doses, we will open 1,000 appointment spaces. Conversely if we do not receive any vaccine doses, we will not be opening any additional appointment spaces. We are confident that this method of scheduling will allow us to continue to successfully offer vaccine to our community throughout the total vaccination effort without our community’s worry that their appointments will be cancelled or postponed.

We are excited to announce a new feature on our website that will help our community monitor the availability of appointments and vaccine doses at our Vaccine Clinic. Visit: https://whidbeyhealth.org/covid-19/#appointments for a status snapshot of daily appointment availability, total vaccine doses administered to date, and links for quickly accessing the State’s Phase Finder eligibility verifying and appointment making tool for when appointments are available. Appointment availability will be published here, on our /news page and on our Facebook page prior to appointments being made publicly available.

COVID-19 Testing Locations

WhidbeyHealth will be continuing to offer swab testing for our community at WhidbeyHealth Medical Center in Coupeville. Anyone can be tested, regardless of symptoms.

Advance registration is required to prevent waiting lines, help us schedule the appropriate number of staff, and manage our personal protective equipment (PPE) inventory and supplies. Call 360-240-4055 weekdays from 8:00am to 5:00pm to arrange your appointment. Please note that health insurers may not cover testing for people without symptoms or a recent exposure to a known infected person. You may be responsible for the cost of your test. We suggest calling your insurance provider with any questions about coverage.

All swab testing must have a scheduled appointment.

Please call our Advance Registration to schedule your testing appointment: 360.240.4055
What is a WhidbeyHealth HERO?

A WhidbeyHealth Hero is someone who helps to shape and define the patient and employee experience at WhidbeyHealth. Here is what people are saying about our January 2021 Heroes:

**Lori Jean Spear, RN – WhidbeyHealth Family Birthplace**

“Lori Jean AKA LJ has been an exemplaryclinician, promoter of knowledge, and support system for everyone on our team. She strives to be current in every aspect of labor and delivery and shares her knowledge with others, which ultimately makes us better care providers to our moms and babies. LJ promotes communication and gatherings outside of work among labor and delivery nurses living on the island. For years before COVID, there werebreakfasts, bocci ball dinners and coffee klatches, bringing nurses together in the interest of sharing and enjoying one another’s company. LJ does all these things with enthusiasm, humor, and the most current evidence-based information. She is a true asset to our unit and community!”

**Annelies De Wolf, Manager – WhidbeyHealth Rehabilitation Care**

Annelies had done an incredible job leading our therapy department to be recognized in a ‘Best of Whidbey’ award for 2020! This award speaks volumes of her leadership and character. Faced with recent staffing and department changes, Annelies has used the opportunity to build a, cohesive, well-rounded, and patient-driven team. She has helped to expand the speech therapy and pediatric therapy departments and she has done an excellent job getting the Total Joint Replacement program off the ground. Our department is lucky to have such a strong leader!

**Mei-Ling Stout, Coordinator – WhidbeyHealth Hospice & Palliative Care**

“Mei-Ling exemplifies customer service! I have worked with her for almost 7 years now. During this time she consistently demonstrates outstanding customer service skills. Mei-Ling is our front line for all incoming phone calls, some of which are from extremely stressed patients and family members. She can take these calls with compassion and empathy while making sure the caller is quickly and properly referred. No matter how busy, no matter how much is on her to-do list, no matter how many interruptions she receives; she constantly presents positively and responds with a ‘how can I help?’ I have never worked with someone who consistently displays professionalism and positivity in the way that Mei-Ling does. She stands out as a superstar!”

**Erin Martin, RN – WhidbeyHealth Family Birthplace**

“I feel Erin embraces the team player concept here at WhidbeyHealth. She is always supportive of the staff, while making sure the patients receive excellent care and treatment. A forever advocator for patients, she has initiated and spear-headed the childbirth education classes. She has also embraced the leadership role, helping to lead the way for our newer employees entering the unit, all the while communicating well with the management and providers as any changes update the unit. She is an amazing resource and sets the standard for aspiring to where we as employees want to be.”

HERO SPOTLIGHT

Meghan McSorley, MD – WhidbeyHealth Women’s Care

Dr. McSorley is a Superwoman of Women’s Care and Labor and Delivery. She is always a preferred provider with patients. Not only does she provide exceptional care to ALL patients, but she is sought out by her peers for her expertise and recommendations on OB/GYN issues. Dr. McSorley is a great listener and takes all the time needed with each patient. We here over and over from her patients that they feel “heard and taken care of” and never feel their visit is ever rushed.

When making her next career move, Dr. McSorley had the opportunity to go anywhere. She chose WhidbeyHealth. Her compassion and drive to make a difference are evident not only at WhidbeyHealth but in the community that she and her family call “home.” In addition to providing exceptional care for her patients, Dr. McSorley has assumed a leadership role as Medical Director for Women’s Care. She is continuously researching and implementing new programs and best practices that positively impact the quality of care for every patient. She holds ‘in-service’ sessions to ensure her clinical teams feel supported while continuing to evolve their skills. Her commitment and dedication to her profession benefits WhidbeyHealth and the Whidbey Island Community.

“I chose Dr. McSorley at WhidbeyHealth Women’s Care in Coupeville to deliver my baby girl and am currently seeing her with my second baby! All of the Doctors, Midwives, and Nurses are so wonderful at this office and will be there whenever you need them.”

Have you seen a hero in action?

Have you had a great experience with a team member at the Medical Center, Primary Care, Specialty Care, or Walk-In Clinic, treating you with exceptional care and compassion? Is there someone you know who works tirelessly to keep the hospital running, caring for patients, or managing operations? We’d love to hear about them!

Click here to add your nomination for the next WhidbeyHealth Hero here.
It is better to prevent cancer than to treat it, and if cancer does develop, it is important to detect it early.

At WhidbeyHealth, we are committed to supporting prevention and early detection efforts in our community. Whether you or someone you love has been diagnosed with cancer, knowing what to expect can help you cope and understand the progression of your treatment as you navigate the journey. Our Cancer Care team is here to help to ensure you have access to the support and resources you and your family need.

One WhidbeyHealth Cancer Care and Palliative Care patient maintains a blog and documents his care journey along with other fascinating anecdotes and narratives about how to view life through a different lens, or as he wrote in one recent blog entry, how to “A Few Lessons from the Birds.” Dan Pedersen, journalist, author, Whidbey Islander, has shared many stories that provide his readers and our island with hope and optimism, mixed with humor, about his journey.

Mr. Pedersen’s experiences have not ended with the resources he mentioned earlier. He describes his Palliative Care nurse, Carla as “my conscience.” He continues, “She reads every doctors note and watches me like a hawk. When we meet online with telehealth software, I can see her smile, rather than a mask and shield. Like everything else, the coronavirus changed medicine overnight… and that’s something I really like about online medicine.”

The entire team at WhidbeyHealth would like to recognize the strength and resolve of Dan Pedersen and those in similar medical circumstances within our community. You will always have a support group at WhidbeyHealth, and we will do all we can to ease the challenges of your personal journey.

Our nationally accredited Cancer team provides compassionate, coordinated care to those in our community who face a cancer diagnosis. Our multidisciplinary team of physicians, care providers and support staff work closely with the Commission on Cancer with a single goal: helping our patients and their family members meet their treatment goals.

To learn more, visit our Cancer Care Center webpage. We’re here when you need care.

To keep up with Dan Pedersen and his journey, you can follow Dan’s Blog here.
Innovation – Telemedicine:

COVID-19 has impacted all aspects of our daily lives and placed an extraordinary strain on our healthcare systems. Even as vaccines become available in phases across Washington, our priority to keep our patients safe and healthy remains, including limiting person-to-person contact. One of the ways that we can continue to serve our patients in a safe manner is through telemedicine.

A telemedicine appointment (sometimes called “telehealth”) is a visit like an in-person wellness appointment with your own primary care provider. Instead of coming into a clinic and having a face-to-face appointment, you are meeting virtually through a computer, tablet or smartphone with a front-facing camera and internet access. During your confidential, secure virtual visit you’ll talk about your current health concerns and learn what to do – just like a traditional appointment.

As telemedicine becomes more available, WhidbeyHealth wanted to ensure that we were providing our patients with the best possible experience – whether that is in the form of an in-person appointment or virtual telemedicine appointment. We have selected VSee as our trusted and secured telehealth solution.

What to expect from a Telemedicine appointment:

• Your visit can take place from a quiet location that is most convenient for you.
• Your provider will use video HIPAA-compliant secure software (VSee).
• Your photo and voice will not be recorded or stored.
• Your privacy and rights will be respected and endured.
Announcing:
The PULSE is now digital!
Keeping our community healthy and informed is our top priority! The new digital PULSE will be hitting your inbox monthly with insights and information to keep you healthy and loving Island life.

Total Joint Replacement – Close to Home
Worsening hip or knee pain can make ordinary movement impossible. Over time, discomfort can rob us of the joy of our favorite activities.

Exceptional care close to home
Joint replacement surgery at WhidbeyHealth is delivered with the high quality and level of services you would expect from any big-city hospital. Our patient-centric team approach focuses on:

- Shorter hospital days
- Lower risk of infection
- Customized plans to prepare you for surgery and for a safe recovery at home.
- Convenient, local rehabilitation and follow-up appointments
- A faster return to activities you enjoy – without pain.

Is it time to think about joint replacement?
Staying close to home is more than a convenience – it means having easier access to your care team for pre-and post-surgery visits, less travel for your family, and individualized attention designed to meet your specific needs.

Explore your options
Call 360-679-5590 and arrange an informal conversation with the WhidbeyHealth Total Joint Replacement team. You can also read about the process online at: https://whidbeyhealth.org/jointreplacement

“Thanks to the team at WhidbeyHealth...my husband and I danced the two-step and enjoyed a glass of champagne to celebrate on Christmas Day!”

- Patsy K., Joint Replacement Patient
MyWhidbeyHealth Patient Portal

Patients of the WhidbeyHealth System benefit from two online patient portals – one for services provided at the Medical Center and one for services received at our outpatient clinics.

Both portals allow secure online access to your medical records, communicate with your providers and their team to request prescription renewals (primary care patients only). In addition, you can share summaries of your care to other providers or with family members you choose.

Sign up for the WhidbeyHealth Medical Center Portal if you had a hospital stay or services at:

- Medical Center
- Emergency Department
- Cancer Center
- Wound Care
- Diabetes Care and Management
- Rehabilitation Care
- Diagnostic Imaging
- Laboratory
- Sleep Care

Smart phone users can download the secure mobile application for iOS or Android.

Sign up for the WhidbeyHealth Clinic Portal if you were seen in one of our clinics:

- Walk-In Clinic Clinton
- Outpatient Services Goldie Street
- Primary Care Cabot Drive
- Women’s Care Oak Harbor
- Primary Care Coupeville
- Women’s Care Coupeville
- Orthopedic Care
- Surgical Care
- Primary Care Freeland

Create your account and access the MyWhidbeyHealth patient portals on our website!
Helping you stay healthy and active is our top priority. Here are a few ways we can help.

**DON’T WAIT**
Many routine things in life have been put on hold, but your health shouldn’t wait. Putting off treatment may worsen your condition. If you feel unwell, contact your provider or WhidbeyHealth clinic near you.

**WHIDBEYHEALTH REHAB**
Rehabilitation is a key component of recovery after an injury or procedure. We specialize in general, cardiac, pulmonary, physical, occupational, and speech therapies.

**COVID-19 TESTING**
Anyone 5 yrs. and older can be tested for COVID-19, regardless of symptoms, if any. There are several testing stations on the island. Call the COVID hotline at 360.240.4055 weekdays from 8-5 to arrange an appointment at the station most readily available to you.

**COVID-19 VACCINE**
WhidbeyHealth is pleased to be serving our community as an ‘open’ vaccine provider for Island County. Our community is eager to receive the COVID-19 vaccination and vaccination is a key step in ending the coronavirus pandemic.

**BEHAVIORAL HEALTH**
If you or a loved one is dealing with the excess stress created by COVID-19, you are not alone. There are resources and services available to help, even if it’s just someone to listen.

**REHAB**
Rehabilitation is a key component of recovery after an injury or procedure. We specialize in general, cardiac, pulmonary, physical, occupational, and speech therapies.

**TELEHEALTH**
We’re using state of the art technology to assure the safety of patients and staff during the COVID-19 pandemic. Some primary and specialty care appointments may be possible via Telehealth visits, at convenient times and places.

**CANCER SCREENING**
Our nationally accredited Cancer team provides compassionate, coordinated care to individuals who face a cancer diagnosis. Our multi-disciplinary team has a single goal: Helping patients and their family members meet treatment goals.

**SLEEP CENTER**
Our team is focused on helping you get a good night’s sleep - essential for good health and well-being.

Take the first steps to more restful sleep.
